SUMMARY

Software Developer with a strong background in HTML, CSS, React, C++, and backend development. Experienced in designing and implementing software solutions to meet business objectives. Seeking a position as a Software Developer to contribute to the development of cutting-edge technology and improve team outcomes.

EXPERIENCE

Software Developer
Kaiser Permanente

· Performed Software Quality Assurance (QA) Testing to ensure the reliability and functionality of software applications.
· Utilized expertise in Back-End and Front-End Web Development to contribute to project development.
· Applied Web Development and Programming skills to create and maintain web applications.
· Implemented Web Design principles to enhance user experiences and optimized websites for search engines (SEO).
· Constructed websites using HTML, CSS, JavaScript, and Node.js.
· Employed web development tools like Git to streamline development processes and enhance productivity.

Frontend Developer
AWM

· Applied proficiency in creating and modifying queries to support technical operations.
· Demonstrated strong skills in browser debugging using dev tools for effective issue resolution.
· Multitasked effectively and applied critical thinking to meet project objectives.
· Applied expertise in HTML, CSS, and JavaScript to create visually appealing web content.
· Applied deep knowledge of Object-Oriented Programming, Design, data structures, and algorithms to drive project success.
· Analyzed server-browser interactions through network panels and performance dashboards.

Software Developer Intern
Twitter

· Possessed knowledge of SQL, enriching database management capabilities.
· Maintained Twitter UI utilizing React/CSS.
· Optimized web pages for security and responsiveness, troubleshooting and enhancing user experiences.
· Demonstrated proficiency in diagramming and documentation for effective communication of design and ideas.
· Managed time and resources efficiently, both independently and within a team, to consistently meet tight deadlines.
· Managed project workflows and tracked tasks, issues, and user stories using Jira, ensuring efficient project management, collaboration, and timely delivery of software releases.

Web Developer
Team Remotely INC

· Created and managed dynamic web applications and responsive user interfaces using React.js, JavaScript, and Tailwind CSS.
· Ensured seamless user experiences and visually appealing designs in all web projects.
· Utilized SQL for efficient database management, ensuring data integrity and accessibility.
· Contributed to the development of high-performance desktop applications using C++ and C# for various client projects.
· Met project specifications and deadlines consistently, delivering high-quality work to clients.

EDUCATION

Computer Science
Coastline College · Newport Beach, CA · 3.5
